Dear Clients and Friends,

Perhaps the one issue on which there is agreement in Washington is the need for comprehensive tax reform. However, getting started on this task is put off year after year. Instead of tackling tax reform in 2014, Congress has once again run out of time and will be lucky if any tax legislation is passed by the end of the year. However, it will be important for you to stay aware of any tax revision that does occur during the coming weeks and months; some could have an effect on your 2014 taxes.

Legislation signed in January 2013 made many provisions in the tax code permanent. While that doesn't mean the tax code is never going to change again, it does bring some temporary stability to the tax law. However, nothing was done to simplify the tax code. Added to the already complicated rules that taxpayers must deal with are the provisions in the *Affordable Care Act* which start to significantly affect taxes this year.

This *Informer* is being sent to urge you to set aside time to do some year-end tax planning. Now is the ideal time to review your 2014 tax picture and to consider actions you can take before year-end to minimize your taxes. Please call if you have questions or if you would like to get together to discuss your tax-cutting options. And please feel free to share this *Informer* with friends or associates who might be interested in this information.

Happy Holidays!

George
